RFuW Engineering Appoints ICON Electromatic as India Manufacturer's Representative

RFuW Engineering, the industry's leading supplier of high power, SMT RF Limiters and Switches announces the appointment of ICON Electromatic as the company's Manufacturer's Representative for India effective January 8th, 2020.

"We are very pleased to announce RFuW Engineering's partnership with ICON Electromatic in support of our Indian customers. India represents one of the fastest growing RF & MW markets in the world. Being able to leverage ICON Electromatic's RF & MW expertise coupled with their strong RF & MW line card position was a compelling factor in making this decision" stated Tim Emery, Vice President of RFuW Engineering. "I had had the pleasure of knowing and working with Mr. Sujith Tennyson, ICON Electromatics' President for almost a decade in an earlier life" continued Mr. Emery.

Developing new business within the RF & MW market place requires a host of special skills which are only accumulated by possessing solid formal engineering training, having accumulated years of RF & MW business development experience and possessing the entrepreneurial drive. The skill sets required for effective RF & MW block diagram selling requires highly specialized skills. ICON Electromatic addresses all of these necessary attributes and their success in signing a host of world class RF & MW OEMs demonstrates their unique position within the India market place.

"We look forward to a long and prosperous relationship with ICON Electromatic" Mr. Emery said in closing.
